

VALUE STATEMENTS

2014 SANP

Vision

People enjoy the health benefits of highly qualified, leading edge naturopathic medicine in Saskatchewan.

Mission

Regulate and assure the safe, highly qualified practice of naturopathic medicine in Saskatchewan.

Value statements provide principles and beliefs that anchor both our naturopathic practice and our activities as public stewards for the regulation of naturopathic medicine in Saskatchewan.

- **Accountable:** We hold ourselves accountable to the public, the government and each other in regulating the practice of naturopathic medicine.
- **Regulatory:** We ensure the fair and open regulation of naturopathic medicine as part of our stewardship of a public trust.
- **Public Safety and Acceptability:** We will seek and maintain the highest standards of safe and acceptable naturopathic practices on behalf of the public.
- **Focused:** We will be consistently focused on all regulatory issues that are before us and deal with them appropriately.
- **Leadership:** We will be proactive in developing new standards and policies needed for the modern practice of naturopathic medicine.
- **Collaborative:** We will work cooperatively with our stakeholders and the public in developing new policies, standards, and in applying appropriate skills and knowledge on behalf of the public.
- **Transparency:** Our activities as a regulatory body and as naturopathic doctors will be open and communicated on a full and timely basis.
- **Quality:** We will exercise the highest standards of quality control in our regulatory and naturopathic practices.
- **Integrity:** The public and our stakeholders will be assured of our consistent earnest, and open efforts as stewards.
- **Excellence:** We are committed to continuous improvement toward achieving exceptional organizational performance.
